

Zev Lipsky

Full Stack Developer

Jerusalem | 053-332-7420 | zevilipsky@gmail.com | [Github](#) | [LinkedIn](#) | [Personal Portfolio](#)

SUMMARY

Full Stack Developer experienced in JavaScript base programming. Knowledgeable of backend and frontend development requirements. Handles tasks with ease. Collaborative team player with excellent technical abilities.

TECHNICAL SKILLS

JavaScript, HTML, CSS, Bootstrap, React.js, Node.js, SQL

TECHNICAL PROJECTS

Chrono-Media - [Github](#) | [Demo](#)

A React App for sharing and interacting with other users, built with Node.js REST API, data stored in Mongo.db database.

- Created REST API with Express.js routers to handle various requests including authentication.
- Implemented authentication and token verification with JWT.
- Stored data in the non-relational database Mongo.db.
- Styled the app with a customized Material UI library.

Weather App - [Github](#)

An app for searching different cities' weather, with user register and login, built with Node.js and EJS data stored in PostgreSQL.

- Implemented user authentication with Express.js using Passport.
- Implemented the use of WeatherAPI to retrieve weather information of different locations.
- Stored data in relational database PostgreSQL.
- Styled with Bootstrap.
